

RECORDS SENTINEL

Let us spot-check your records remotely.

FFLGuard's **"Records Sentinel"** service (formerly known as our "A&D/4473 Fax Review and Assessment") is an Additional Service that provides clients with an easy, affordable way to insure records are accurate and compliant.

By subscribing to our *Records Sentinel*, clients provide us, either by e-mail or fax, the following for review:

- Thirty (30) recent ATF Forms 4473 - and -
- Five (5) recent, full pages from your A&D book.

One of our Professionals, either an attorney or former ATF Investigator, will do a line-by-line quality check, and we will return an Attorney/Client privileged report to you, along with mark-ups, that indicate what issues may exist in those records. We highlight what is required by law, indicate what is recommended per our Law Plus Guidelines, and suggest courses of corrective action. The report will also guesstimate what the end-result of an ATF compliance inspection would be based on the random sample of forms that you have provided.

Subscribers to our Records Sentinel service are afforded 2 additional points towards their Law Plus Guidelines requirement.

Cost: \$350 per occasion, or \$1100 for one year
(forms submitted quarterly).
